PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 5 years of professional experience specializing in React.js, Python, WordPress, Django, RESTful APIs, and modern web application development. Experienced in designing, developing, and maintaining scalable web applications, enterprise platforms, and high-traffic customer-facing solutions. Proficient in building responsive user interfaces, developing secure backend systems, integrating third-party APIs, and deploying cloud-based applications. Strong expertise in React.js, Next.js, Python, Django, AWS, JavaScript, MySQL, and WordPress, with a proven ability to deliver high-performance, user-centric digital products that drive business growth and operational efficiency.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), WordPress, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Python, Django, PHP, REST APIs, JWT

Database: MySQL, PostgreSQL

Cloud: AWS, Digital Ocean, Hosting Management, Cloudways, WpEngine, Cloudflare

PROFESSIONAL EXPERIENCE

Web Developer

Dec 2024 – Present

NextMove Holding

Doha, Qatar · On-site

- Develop and maintain Qatar's cinema booking platform, building responsive and high-performance web applications.
- Develop and enhance core booking features including movie listings, showtimes, seat selection, booking workflows, loyalty rewards, coupon validation, and e-ticket generation.
- Integrate frontend applications with backend services and third-party systems through secure REST API integrations.
- Build reusable React components and optimize application performance, scalability, and user experience across desktop and mobile devices.
- Develop and maintain corporate websites and business applications, ensuring high availability, security, and performance.
- Manage website deployments, hosting environments, domain configurations, and application maintenance.
- Collaborate with cross-functional teams to deliver scalable digital solutions aligned with business requirements.

Web Developer

Jan 2024 – Nov 2024

WebQ Media

Kozhikode, India · On-site

- Developed and maintained multiple web applications using React, Python, and WordPress, delivering scalable solutions for diverse client requirements.
- Played a key role in building an AI-integrated School CRM system, leveraging Google APIs and AI services to enhance automation, including smart responses, data processing, and workflow optimization for student and administrative management.
- Collaborated closely with product managers and UI/UX teams to translate requirements into user-centric, scalable digital solutions.
- Optimized application performance, scalability, and cross-platform compatibility for improved user experience across web applications.
- Designed and implemented modular, reusable code architecture, reducing technical debt and improving development efficiency across teams.

Full Stack Developer

Brandhackers

Sep 2021 – Dec 2023

Kozhikode, India · On-site

- Developed and maintained scalable Laravel applications, ensuring high performance and reliability.
- Designed and implemented MySQL database schemas, optimizing queries for efficient data storage and retrieval.
- Integrated third-party APIs and services to extend application functionality.
- Leveraged React hooks, Context API, and Redux for efficient state management and improved app performance.
- Ensured responsive design and mobile compatibility.
- Managed code versioning and team collaboration using SVN version control.

KEY PROJECTS

Qatar Cinema Booking Platform

Led the development and enhancement of a large-scale online cinema booking platform serving customers across Qatar. Developed and maintained booking workflows, movie listings, showtimes, seat selection, loyalty rewards, coupon validation, payment integrations, and e-ticket generation. Optimized performance, responsiveness, and user experience across desktop and mobile platforms while integrating secure backend services through REST APIs.

AI-Powered School CRM System

Contributed to the development of an AI-integrated School CRM platform designed to streamline student and administrative management processes. Implemented AI-powered automation features, Google API integrations, smart response generation, workflow automation, and data processing capabilities to improve operational efficiency and user experience.

Corporate Websites & Business Applications

Developed and maintained multiple corporate websites and custom business applications for various industries. Built responsive user interfaces, integrated third-party services, optimized application performance, and managed deployments, hosting, and maintenance to ensure high availability and security.

EDUCATION

Bachelor of Computer Applications

2016 – 2019

Prabitha College, Calicut

CERTIFICATIONS

Python and Django Web Development Certification
