SKILLS

React | Python | PHP | Laravel | Wordpress | Django | Git Version Control | SVN | HTML | CSS |
Bootstrap | JavaScript | Tailwind | MySQL | Sass | Deployment

PROFESSIONAL EXPERIENCE

Maven technology - Web Developer

12/2024 – Present

Qatar, Doha

- Develop and maintain React-based dashboards and movie booking app frontends, focusing on performance, responsiveness, and intuitive user interfaces.
- Maintain and customize WordPress websites, including theme and plugin development tailored to specific client requirements.
- Set up, migrate, and manage hosting environments, ensuring secure, scalable, and reliable deployment for both custom web apps and WordPress sites.
- Collaborate with design and development teams to deliver user-focused digital solutions that align with project goals and client expectations.

WebQ Media - Full stack Developer

01/2024 – 10/2024

Kozhikode, India

- Develop and maintain web applications using React, laravel, Python and WordPress
- Collaborate with product managers and UX/UI designers to ensure seamless feature delivery and user-centered design.
- Optimize applications for maximum speed, scalability, and cross-platform compatibility
- Architect and implement reusable, modular, and maintainable codebases, improving team productivity and reducing technical debt

Brandhackers - Full stack Developer

9/2022 – 12/2023

Kozhikode, India

- Developed and maintained scalable web applications using Laravel framework, ensuring high performance and reliability.
- Designed and implemented MySQL database schemas, optimizing queries and ensuring efficient data storage and retrieval.
- Integrated third-party APIs and services to extend application functionality and improve service delivery.
- Utilized React hooks, Context API, and Redux for efficient state management and improved app performance.
- Ensured responsive design and mobile compatibility across websites by utilizing CSS, HTML5, and JavaScript best practices.
- Worked with version control systems (SVN) to manage code changes and collaborate effectively within a team

PROJECTS

AI Assessment Dashboard

Developed a React-Python based dashboard for AI assessment, integrating the ChatGPT API into the Django backend to process natural language queries and generate responses.

Technologies Used : React, Python, Django, Git, MongoDB, ChatGPT API

Laravel eCommerce application

Developed a Laravel-based eCommerce application, incorporating product management, user authentication, search functionality, and order processing. Used MySQL for efficient database management. Ensured responsive design using Laravel Blade and optimized performance with Eloquent ORM.

Technologies Used : Laravel, php, MySQL, Laravel Blade, Javascript

React & Laravel eCommerce Application

Developed a full-stack e-commerce platform using React for the front-end and Laravel for the back-end, creating a user-friendly shopping cart and checkout process with advanced filtering and sorting features for product discovery.

Technologies Used: React, Redux, Laravel, MySQL, Axios, Bootstrap, JWT, SASS

EDUCATION

Bachelor of Computer Applications

Prabitha College Calicut

CERTIFICATIONS

Python and Django Web Development Certification

2016 – 2019
